

## Libraries &amp; Academic Innovation

While the library website is unaffected, the current Cloudflare outage may interrupt web access to some software throughout the day. For example, the software used to schedule tutoring and review sessions for Academic Commons (Penji) as well as other GWU sites and research databases may be intermittently affected. Thanks for your patience as we wait for this issue to be resolved.

## Generative Artificial Intelligence (GenAI)

We recognize that GW faculty and students have a wide variety of views on genAI. At the Center for Teaching Excellence, our approach is to support faculty where they choose to use GenAI in your teaching, we support you in identifying and using tools to help support learning and academic integrity.

We continue to develop resources to support:

Chat with a librarian!

- Discussing GenAI with your students from a variety of perspectives
- Promoting learning without GenAI
- Encouraging responsible use of GenAI if you permit students to use it

We recommend beginning with the following resources created by the [GenAI and AI in Teaching](#) workgroup and approved by the EPT subcommittee of the Faculty Senate:

- [Deciding on appropriate use of GenAI in academic classes](#)
- [Communicating your GenAI expectations to students](#)

Additionally, we offer [multiple workshops each semester](#) on teaching and GenAI, striving to provide a balanced perspective. If you would like to invite us to your department, program, or other group for a tailored workshop, [please contact us](#).

## Generative AI and Teaching Group (GAIT)

The [Generative AI and Teaching Group \(GAIT\)](#) brings together faculty from across GW to discuss the impact of emerging GenAI capability on teaching and learning, explore institutional issues around pedagogy arising

from GenAI, and gather high-quality resources for effectively teaching students to thrive in this changing educational landscape. To join this group, [contact Karen Singer-Freeman](#), the Associate Dean of Teaching and Learning Excellence. The group meets monthly on Zoom; all are welcome to attend.

## GWIT Resources on GenAI

- [AI Guidance and Best Practices](#)
- [Enterprise AI Tools & Services](#)

## Upcoming Workshops on GenAI

No related upcoming events to show at this time.
