**The challenge:
Girls / women
have lower self
efficacy than boys
/ men.**

***Can start as early
as age 11.**

**Men apply for a job
when they meet
only 60% of the
qualifications, but
women apply only
if they meet 100%
of them.**

Break the Research

**Women negotiated
higher than male
counterparts when
acting on behalf of
others**

Source: [Hannah Riley Bowles](#)

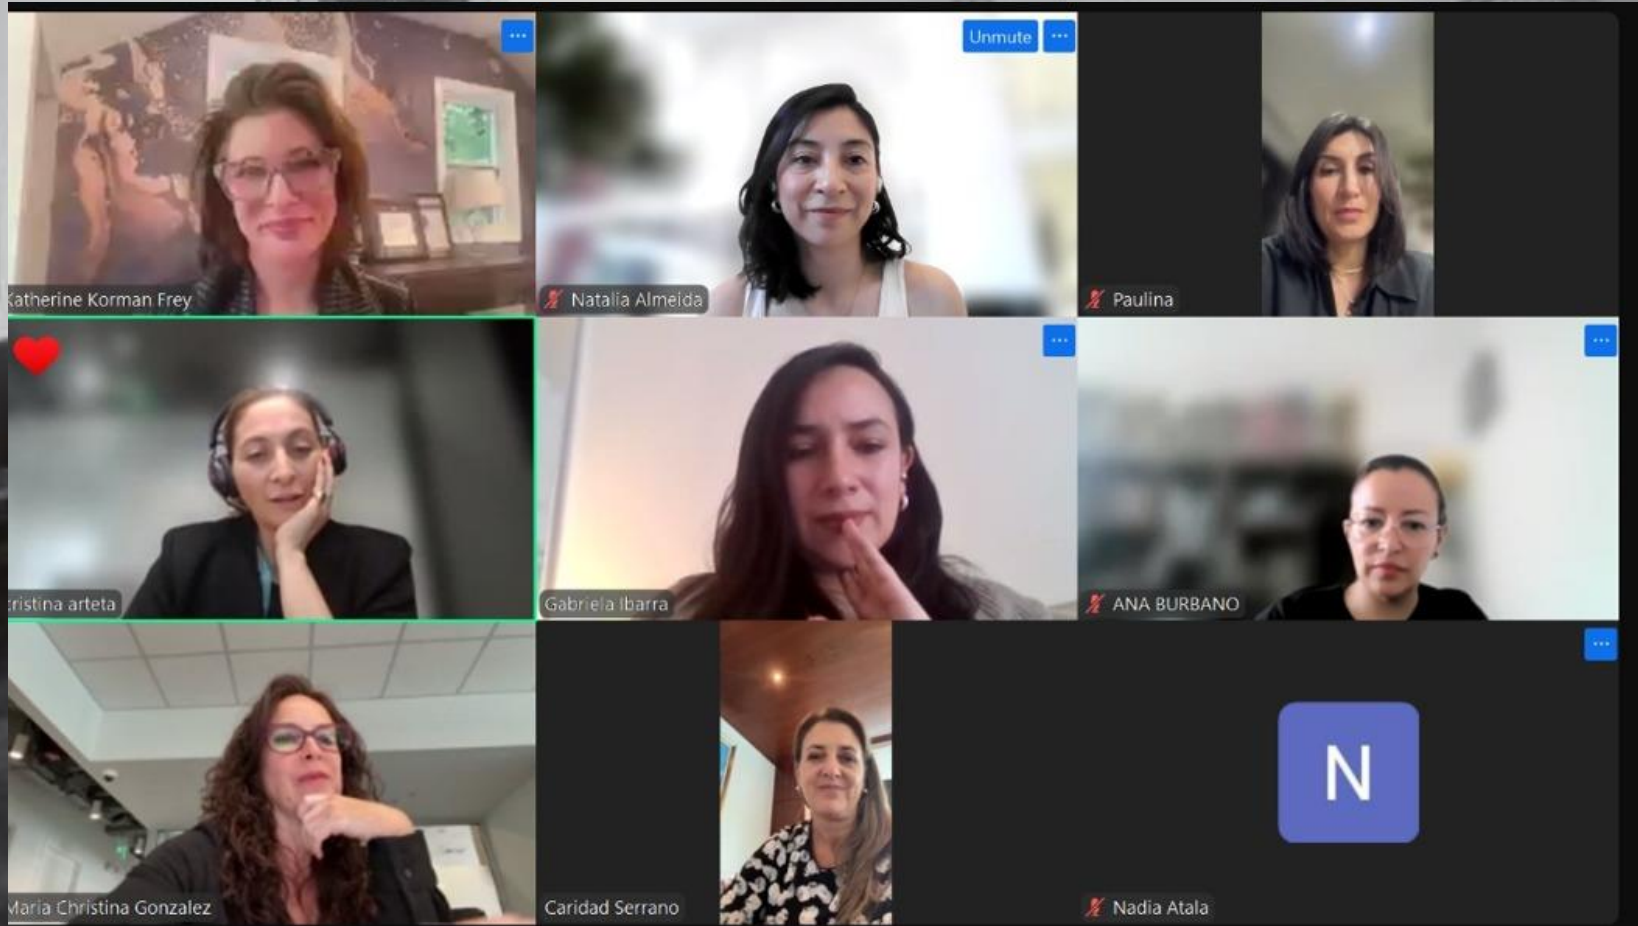

**Across many studies,
women are better
leaders.**

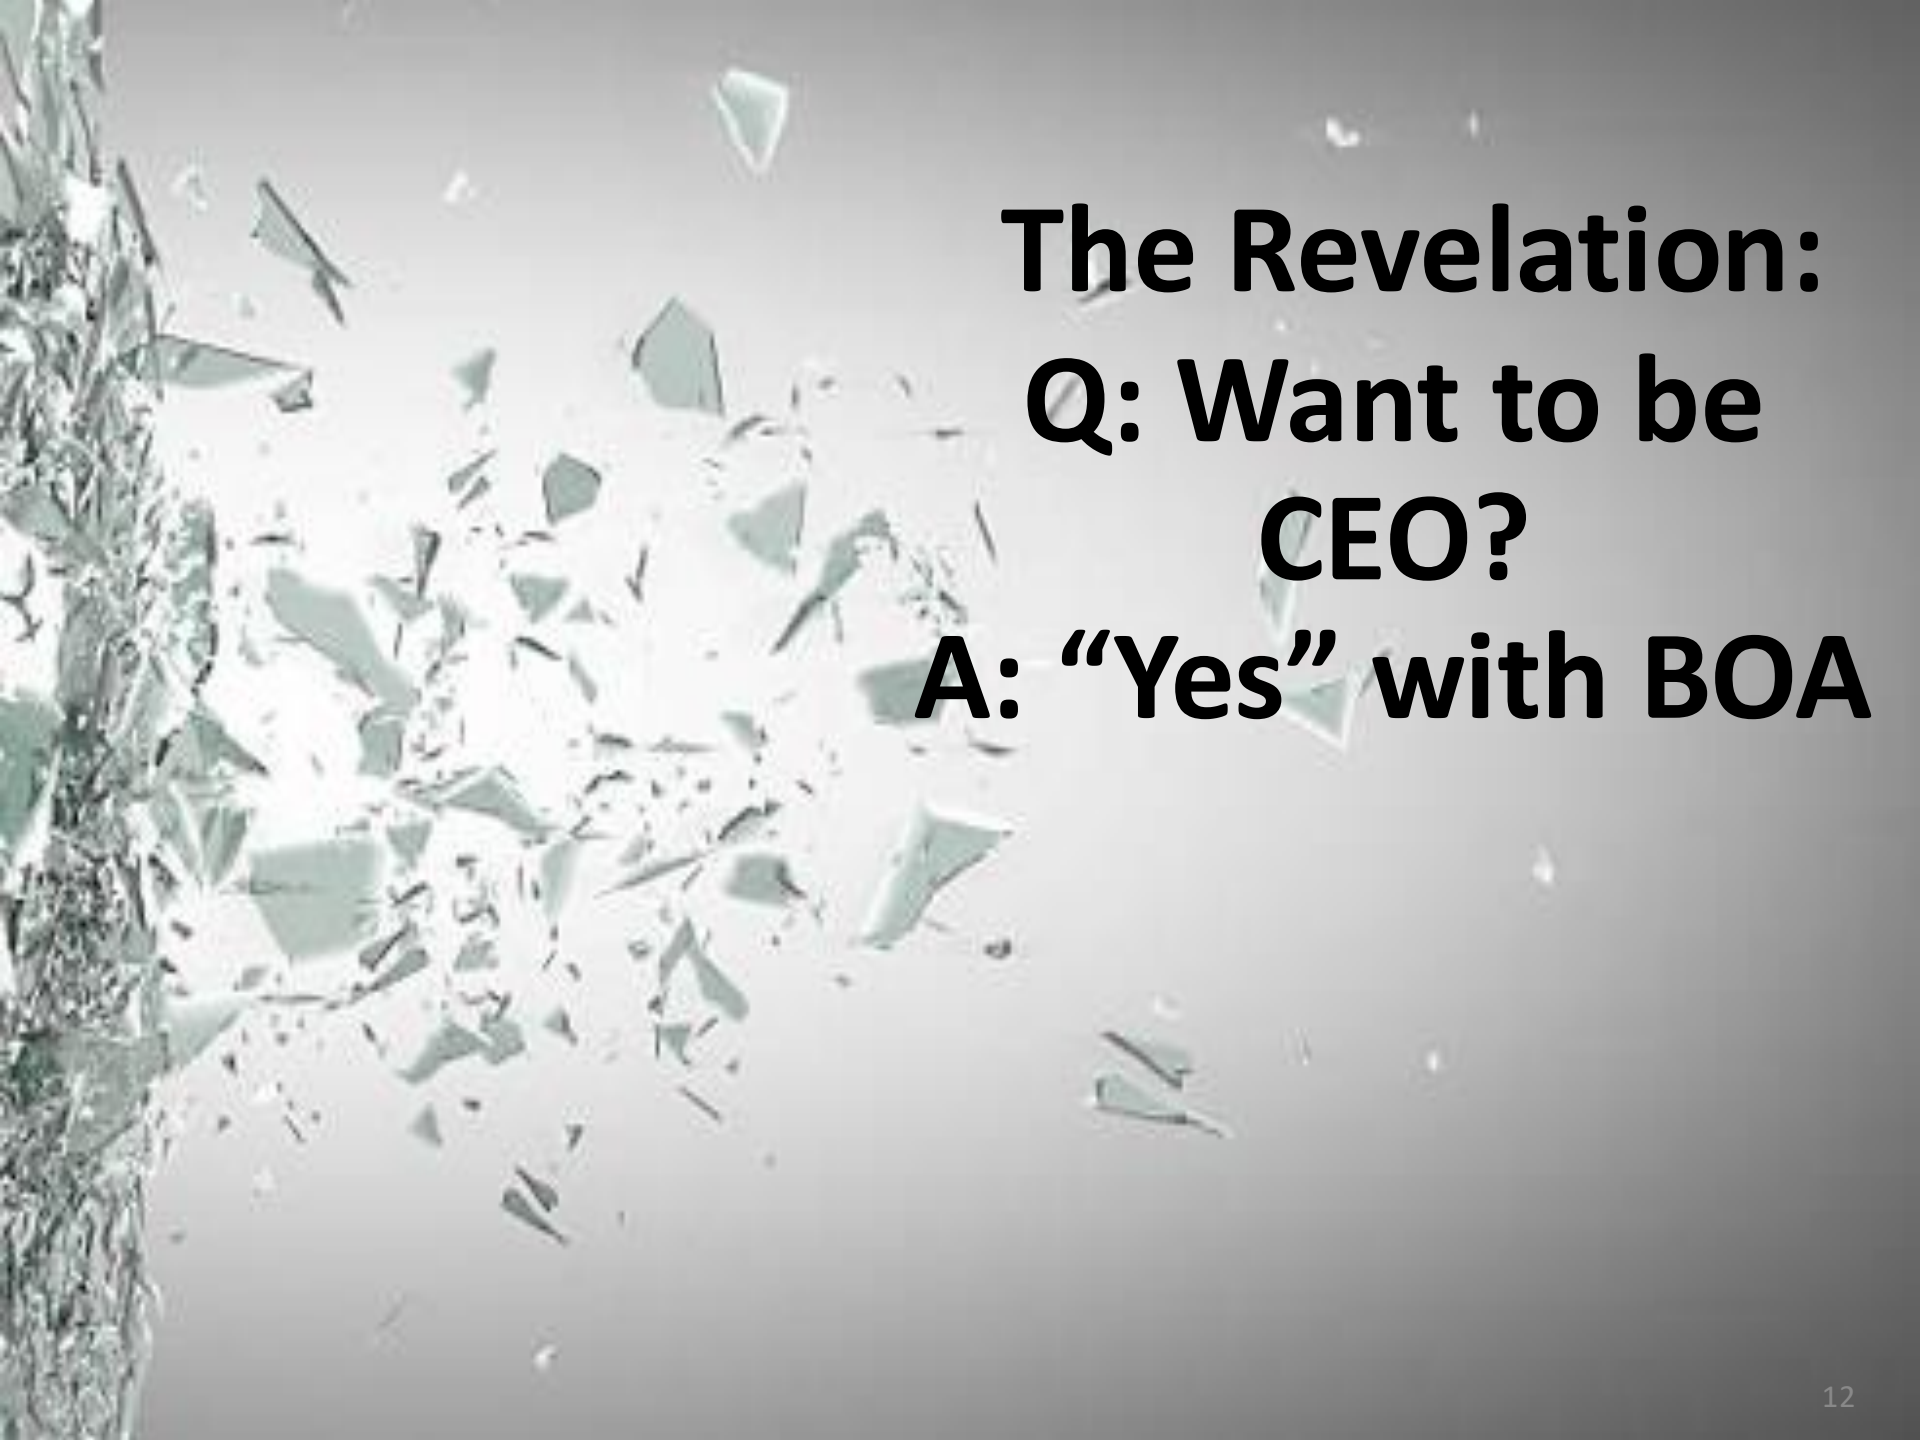

**Access to mentors and
role models shown to
entrepreneurial
increase self-efficacy
for women (5 =
minimum number)**

WHO WANTS TO BE CEO?

11

The Revelation:

**Q: Want to be
CEO?**

A: “Yes” with BOA

YOUR PERSONAL BOA: BUILD IT

*It takes just as much time
and effort to dream small
as to dream big, so you
might as well DREAM BIG!*

~ Rosabeth Moss Kanter

I. “DREAM BIG” Career Goal

**II & III: CONTEXT and BOA
Formation**

**IV & V: (more) CONTEXT and
BOA Revision**

**Game Time: Call the Meeting To
Order**

I. DREAM BIG CAREER GOAL

Sample chat prompt:

I want to be _____ in 5/10/20 years. I want to assemble a board of advisors to coach, mentor, and get me there. What do you information do you need to know to assemble this personal BOA?

Two scenarios:

- *You know the goal*
- *You don't (let AI guide you)*

II. CONTEXT ROUND 1

Answer the bot's questions, which may be:

– About board

- **E.g., Historical or current figures (or chat bot assembles on own)**

– About you

- **Your background, skills, education, plans for education, skill acquisition, career between now and then (or let bot guide you)**
- **Your values and motivations**

III. BOA ROUND 1

Ask AI to assemble the board for you.

IV. CONTEXT ROUND 2

Enhance context with YOUR info to shape a revised board. E.g.,

- **What other information can you provide to deepen results?**
- **Where would you like to work (geography / field)**
- **What culture of organization are you seeking (or would you like to create)**
- **People (not institutions, if bot has put offices on your board).**

Copyright Katherine Korman Frey

V. BOA ROUND 2

Ask AI to re-assemble the board for you given the additional context.

GAME TIME: CALL THE MEETING TO ORDER

Ask the first question to your personal board of advisors.

Sample: Specific /General

- ***Lay out a career, education, and skills acquisition path for me for the next ____ years.***
- ***I want to _____, how do I best go about that?***

AI BOA: HOW DID IT GO?

RESULTS: Professional Satisfaction + Claude Highest Marks

Appendix A: Pilot Results — Self-Reported Satisfaction

Spring 2026 pilot cohort: 22 students (GWSB, CCAS, SEAS). Tools used: ChatGPT (14), Claude (3), Gemini (2), Perplexity (1).

Metric	Average Rating	Range
Professional / Career Value	4.0 / 5.0	3.0 – 5.0
Personal / Emotional Support	3.8 / 5.0	3.0 – 5.0
Undergrad Professional Value	3.9 / 5.0	3.0 – 5.0
Graduate Professional Value	4.1 / 5.0	3.5 – 5.0
Claude users (n=3)	4.25 combined	4.0 – 5.0
ChatGPT users (n=14)	3.85 combined	3.0 – 5.0
Gemini users (n=2)	3.90 combined	3.5 – 4.25
Perplexity users (n=1)	4.0 combined	—

RESULTS: Sample Board 1

- **Student: Undergraduate, Marketing / Entrepreneurship**
- **Student goal (prompt): "I want to be a CEO of a fashion or lifestyle brand within 10 years. I'm good at marketing and brand storytelling but weak on finance and operations."**
- **AI tool used: ChatGPT**
- **Student satisfaction: 4 / 5**

Sample Board 1

Board composition generated:

Seat	Advisor Type	Role on the Board	Sample Advice Given
1	Operator / Practitioner	Someone who has built a consumer brand from scratch	"Ship something small and imperfect before you feel ready. Your first product is your first proof."
2	Financial Advisor	CFO-level mentor; addresses stated weakness	"Learn to read a P&L before you hire anyone to read it for you. Margins are the business."
3	Strategic / Long-term Thinker	Brand strategist with 20+ year horizon perspective	"Build the community before the product. The brand is the relationship, not the logo."
4	Network Connector	Someone who opens doors in the fashion/retail ecosystem	"Go to one industry event per quarter. Not to pitch — to listen and be recognized over time."
5	Peer / Near-peer	A founder 3–5 years ahead on a similar path	"You don't need permission to call yourself a founder. Start now, title later."

RESULTS: Sample Board 2

- **Student: Graduate Student, International Business / Impact Investing**
- **Student goal (prompt):** "I'm building a dairy farming operation in Zimbabwe with a 3-year plan to raise \$500K in impact capital. I need help with financial modeling, investor relations, and navigating the political and regulatory environment in MENA/Africa."
- **AI tool used:** Claude
- **Student satisfaction:** 5 / 5

Sample Board 2

Board composition generated:

Seat	Advisor Type	Role on the Board	Sample Advice Given
1	Impact Capital Specialist	Investor familiar with African agricultural ventures	"Frame your ask around measurable impact metrics first, financial returns second. Impact LPs want the story before the spreadsheet."
2	Financial Modeler / CFO	Addresses stated weakness in financial modeling	"Build your model in three scenarios: conservative, base, and aspirational. Investors will stress-test all three. Know your unit economics cold."
3	Regulatory / Political Navigator	Expert in SADC and Zimbabwean agribusiness policy	"Regulatory risk is your biggest non-financial risk. Map every approval you'll need before you raise a dollar. Investors will ask."
4	Operator in Emerging Markets	Someone who has built and run a supply chain in sub-Saharan Africa	"Logistics will break your model before finance does. Build relationships with transporters before you need them."
5	Network Connector / Sponsor	Ties to DFIs (IFC, USAID, African Development Bank)	"Development finance institutions are slower than private capital but more patient. Apply to one DFI grant program now, even if you're not ready — the process teaches you what you're missing."
6	Personal / Resilience Anchor	Addresses isolation and execution risk of operating abroad	"Build in a quarterly checkpoint with someone who knows you, not just the business. The hardest part of building abroad is staying calibrated on what's real."

RESULTS

Success correlation: The more specific the student's prompt, the more targeted and actionable the board.

Limitations: AI couldn't fully account for IRL specifics (e.g., on-the-ground political complexity in Zimbabwe).

**...And now for something
completely different**
